Postgraduate Teaching Course

12 noon
Revised 3 March 2011

Monday, 21 March 2011
An introduction to cancer
Emeritus Professor Donald Metcalf
Carden Fellow, Cancer & Haematology Division
WEHI Lecture Theatre

Monday, 28 March 2011
The genetic basis of cancer
Professor Jerry Adams
Joint Division Head, Molecular Genetics of Cancer Division
WEHI Lecture Theatre

Monday, 4 April 2011
Apoptosis and Cancer
Professor Andreas Strasser
Joint Division Head, Molecular Genetics of Cancer Division
Cory Theatre, GTAC (University High School)

Monday, 11 April 2011
Cancer genomics
Professor David Bowtell
Head, Cancer Genomics & Genetics, PI Australian Ovarian Cancer Study, Peter MacCallum Cancer Center
Charles La Trobe Theatre, RMH

Monday, 18 April 2011
Epigenetics and Cancer
Dr Marnie Blewitt
Lab Head, Molecular Medicine Division
Charles La Trobe Theatre, RMH

Monday, 2 May 2011
EGFR mutations and antibody therapeutics in cancer
Professor Andrew Scott
Director, Ludwig Institute for Cancer Research, Melbourne-Austin Branch
Cory Theatre, GTAC (University High School)

Monday, 9 May 2011
Familial cancer
A/Professor Clare Scott
Lab Head, Stem Cells & Cancer Division
Cory Theatre, GTAC (University High School)

Monday, 16 May 2011
Breast cancer
Professor Geoff Lindeman
Joint Division Head, Stem Cells and Cancer Division
Cory Theatre, GTAC (University High School)
Postgraduate Teaching Course
12 noon
Revised 3 March 2011

Monday, 23 May 2011
Clinical development of targeted therapies for cancer
A/Professor Grant MacArthur
Head, Cancer Therapeutics Program, Molecular Oncology & Translational Research Labs and Medical Oncology Skin & Melanoma Clinical Service, Peter MacCallum Cancer Centre
Cory Theatre, GTAC (University High School)

Monday, 30 May 2011
Tumour initiation and propagation: role of ‘cells of origin’ and cancer stem cells
Professor Jane Visvader
Joint Division Head, Stem Cells & Cancer Division
Cory Theatre, GTAC (University High School)

Monday, 6 June 2011
Targetting signalling pathways to improve cancer treatment
Professor Tony Burgess
Lab Head, Epithelial Biochemistry Lab, Ludwig Institute for Cancer Research
Cory Theatre, GTAC (University High School)

Monday, 20 June 2011
Control of metastasis by the tumour microenvironment
A/Professor Robin Anderson
Head, Metastasis Research Laboratory, Peter MacCallum Cancer Centre
Cory Theatre, GTAC (University High School)

Monday, 27 June 2011
Cancer Immunoediting
Professor Mark Smyth
Group Leader, Cellular Immunity Lab, Peter MacCallum Cancer Centre
Cory Theatre, GTAC (University High School)

Monday, 4 July 2011
Targeted cancer therapies
Professor David Huang
Division Head, Chemical Biology Division
Charles La Trobe Theatre, RMH

Monday, 11 July 2011
No Seminar

Monday, 18 July 2011
Xenograft models of pediatric acute leukaemia: Insights into biology and treatment
A/Professor Richard Lock
Children’s Cancer Institute Australia, Lowy Cancer Research Centre, University of NSW
Cory Theatre, GTAC (University High School)
Postgraduate Teaching Course
12 noon
Revised 3 March 2011

Monday, 25 July 2011

Virus associated human cancer

Professor Ian Frazer FAA
Director, Diamantina Institute and Research Leader, Epithelial
Cancer Division, The University of Queensland
Cory Theatre, GTAC (University High School)

Monday, 1 August 2011

Clinical translation - developing targeted therapies in haematological cancers

Professor Andrew Roberts
Head, Clinical Translation and Lab Head, Cancer &
Haematology Division
Charles La Trobe Theatre, RMH

Monday, 8 August 2011

Antigen presentation in bone marrow transplantation: where and when?

Professor Geoff Hill
Head, Division of Immunology, Bone Marrow Transplant Lab,
QIMR
Charles La Trobe Theatre, RMH
